## Legislature and Rail Roads.

EDITOR HERALD—Freeman's bill,  
regulating freights and fares, seems to  
absorb the attention of the Legislature  
at present.

If this bill is correctly represented it  
appears to have been drawn up in the  
interest of the railroads, and for the  
purpose of hoodwinking the Assembly.

Except in a few instances, it grants  
the roads the right to increase their  
tariff 20 per cent. The fare from Sacramento  
to Colfax, and a few stations on  
the Central Pacific will be reduced  
a little, but to compensate for this  
reduction it will be largely increased in  
other places.

The first section of the bill fixes the  
tariff on freight at \$2.40 for each 80  
miles. That is not out of the way, but  
in the same section they are allowed 10  
cents per ton per mile for 20 miles.  
This is out of all proportion.

Section 2 permits an additional  
charge of 50 per cent, when the road  
reaches an altitude of 1,500 feet above  
the level of the sea.

It is safe to estimate that over half  
the roads of California are more than  
\$1,500 feet above the level of the sea.

The 3d section permits still an additional  
charge of 25 per cent, on all  
articles of a bulky nature, such as  
farming utensils, machinery, hardware,  
oils, liquors, and nearly all  
merchandise.

But there is still an additional  
charge of from 50 to 100 per cent. to be  
added for very heavy articles. Now  
let us estimate the charges on one ton  
of merchandise from Ogden to San  
Francisco at the rate this bill proposes.

The 1st section allows 3 cents per  
mile for 80 miles, \$2.40; for 1,500 feet  
elevation add 50 per cent, \$1.20; total,  
\$3.60. For bulky freight add 25 per  
cent, 90 cents. For 80 miles they receive  
\$4.50. From Ogden to San  
Francisco they would receive \$47.85;  
and from New York over \$160; and  
for very heavy freight 50 and even 100  
per cent, may be added to this amount.

The 1st section of this bill there will  
be but one point gained, it will demonstrate  
the fact that the Legislature  
has the power to control corporations;  
but this was known to all legal men  
before.

If it is all that we are to expect  
they may as well drop the subject. No  
friend of corporations could have presented  
a more favorable bill. The  
penalty for violating any of the provisions  
of this bill is so small that any  
village sexton can pay it.

## BUSINESS.

A butter thief preys nightly on the  
pantries of the citizens of Salem,  
Oregon.

## The Orange Question.

Mr. Venable has offered in the Legislature  
the following resolution and  
preamble, which was read twice and  
referred to the Committee on Federal  
Relations:

Whereas, The cultivation of tropical  
and semi-tropical fruit is of vast importance  
to the State; that every encouragement  
should be extended to the same; that the  
admission of such fruits for consumption  
free of duty from foreign countries will seriously  
retard the development of that industry;  
and that the Act of Congress of  
1872 allowing such fruits to be admitted  
free of duty for the purpose of propagation  
or cultivation, has recently been so decided  
by Attorney General Williams to have the effect of  
admitting the same for consumption free;  
therefore

Resolved, by the Assembly, the Senate  
concurring, That our Senators in  
Congress be instructed, and our Representatives  
requested to use their influence to procure the  
immediate repeal of that clause in the act of  
Congress approved June 6, 1872, which  
permits tropical and semi-tropical  
fruits, for consumption, to be admitted  
free of duty.

Resolved, That His Excellency, the  
Governor of the State of California,  
be requested to transmit a copy of this  
resolution to our Representatives and  
Senators, respectively.

## San Bernardino Items.

The fine grain country of San Bernardino  
is becoming comparatively settled.

With the Messrs. Barrett, Clark  
and McCoy in the Potrero, and  
Gilman, De Crevaquer, More, Cooper,  
Fisher, etc., in the Pass there is quite  
a large settlement there already.

Very large crops will be put in this  
season. There is no better grain land  
in the State.

Mr. Bessant of Warm Creek, informs  
us that a much larger area of  
land will be sowed in grain than usual  
this season, in that fertile and flourishing  
section of the county.

Jeff Thomas is sowing grain upon  
the plain adjoining the Hancock  
Ranch. In ordinary seasons, this entire  
plain, from the Com line to the foot of the  
mountains, would produce good wheat crops.

Henry Clark, lately from the Sonora  
mines, Mexico, goes to Holcomb  
Valley in a few days, to engage in  
mining operations there. His perseverance  
ought to be rewarded with success.

The mill at the Holcomb valley  
mine will resume operations next  
week.

There has not been enough frost this  
winter on the farms of Suverkrup and  
Huston, four miles from town, to kill  
tomato plants.

John R. Brerly, U. S. Gauger, with  
his assistants, I. G. Mappa and T. S.  
Hall are here attending to business in  
the spirit line.—[Guardian.]

RAILROAD REMOVS.—A large  
construction force, with its entire equipment,  
consisting of some seventeen  
prairie schooners, passed through  
here yesterday on the way to Delano.

They have been employed on the Los  
Angeles branch railroad for several  
months, but the being completed they  
were ordered to report at Delano.

Thus much is known, and it is said  
that they have received instructions  
to resume work on the S. P. R. R. at  
Delano and put the road through to  
this place. We cannot speak positively  
of this, but it is probable that the  
work will be resumed there at an  
early day. The ground is in fine  
condition for working, the weather cool,  
everything favorable, and as soon as  
the feed on the plains is a little  
higher, we expect to see the work  
begin.—[Bakersfield Californian, Jan. 15.]

## PACIFIC COAST ITEMS.

There were 246 deaths in Oakland  
last year.

The cost of running the State Normal  
School for the year is \$45,000, or  
an average of \$875 for each pupil.

The Fresno *Expositor* calls for a  
general cleaning out of the Mexican  
population which harbor the outlaws  
in that part of the State.

The Eureka (Nev.) *Standard* is  
informed that W. L. Fritchard, the  
celebrated freighter, has bought an interest  
in the narrow gauge railroad.

The case of W. L. Blakely, ex-  
Treasurer of Santa Cruz county, has  
been postponed to the March term of  
the District Court of that county.

The various Tribes of the Improved  
Order of Red Men in this State have  
appointed committees to arrange for  
the celebration of Washington's birth-  
day.

The Cincinnati *Gazette*, has information  
that Senator Stewart of Nevada  
has been indicted in London for  
his connection with the Little Emma  
mine speculation.

John B. Felton has a suit against  
the city of San Francisco for a fee of  
\$20,000. The city is not willing to pay  
more than \$4,000, which it claims is  
the whole amount due.

Dr. Strenzel, of the Alhambra  
Ranch, near Martinez, has raised in  
his orchard some wonderfully fine  
oranges, lemons, and olives. He now  
derives a good income from these  
fruits.

Humboldt county, in this State, is  
out of debt. Its Treasurer has given  
notice that he has the money on hand  
to pay all its outstanding warrants,  
and they are coming into his office to  
the last one for payment.

Wm. Peritt, who was recently ar-  
rested at Salt Lake on a requisition  
from the Governor of California, on  
charge of robbing the stage in Shasta  
county in September, 1871, arrived  
there last night in charge of J. B.  
Hume.

M. N. Elstner, son of M. R. Elstner,  
of Ormsby county, has received official  
notice of his appointment by the  
President to the cadetship at the  
United States Military Academy, West  
Point. He is ordered to report to the  
Superintendent of the Academy, May 20, 1874.

The Bald Mountain Company of  
Forest City, Sierra county, has mine  
a champion county. After drifting  
out gravel for thirteen days, and wash-  
ing eight days, the company cleaned  
up 11,000 ounces of gold. The gold  
there is worth \$18 an ounce, which  
gives only \$198,000 for the little run.

**Los Angeles Herald.**  
WEDNESDAY, JAN. 21, 1874.  
**The DAILY HERALD has nearly DOUBLE the Circulation of either contemporary paper published in Los Angeles. As an advertising medium it is consequently of DOUBLE their value.**

**Sargent's Land Bill.**  
One of the most important matters pending in Congress is Sargent's Bill to hand over to the Central Pacific Railroad Company the title to all the Swamp Lands in California, not already vested in the State. If Sargent's Bill becomes a law, the Central Pacific Railroad Company will take in fee, without paying one cent for it, all the real and constructive swamp lands in the State, that happen to be within twenty miles of any line of their railroads.

The Legislature seems to be trying in a feeble way to defeat Sargent's Bill, by passing resolutions of "instruction" to Senators, and "requests" to Representatives in Congress to vote against this magnificent scheme of plunder. But in the face of these proceedings, the Legislature, with all its professions of reform, is playing consciously or unconsciously into the hands of the great monopoly.

The Legislature knows, or ought to know, that these lands have been granted to and absolutely belong to the State, and that to the State, and not to Congress, belongs the right to dispose of them. It should assert this right instead of begging of Congress to forego its intentions. The clap-trap that these lands are going into the hands of speculators is hardly worthy of attention.

The Legislature can take the necessary steps to prevent their being absorbed by speculators, and we cannot see that giving up the right to them and allowing Congress to grant them over to the railroad company would mend the matter, even if the Legislature is too imbecile to protect the State from the machinations of speculating land-grabbers.

**The Library.**  
It seems that the Library Association have abandoned, for the present at least, the idea of forming a Joint Stock Association for the purpose of erecting a building for a Public Hall and Library Rooms. They have been consulted with many of the leading merchants and business men of the city, and do not meet with the encouragement that would induce them to proceed with the enterprise. It is now proposed to secure the necessary legislation to authorize the levy of a tax of one mill on the dollar, for the purpose of putting the Library on a sound basis, and making it free to the public. We are heartily in favor of this plan. A good public library would be a great benefit; it would be a public educator equal a high school, and in proportion to its cost, exert a conservative effect on the morals of the city, greater than any other agency that can be devised. Such an institution is in fact a public necessity, and in a city as much resorted to by a reading people as Los Angeles, no great time should be permitted to elapse before it is established.

It is no new thing to raise money for such purpose. The State of Illinois has provided by a general law, that any municipality by a vote of its citizens, may levy taxes to establish and maintain a public library, and numerous creditable institutions of that character reflect credit on the State, and attest the wisdom of the law.

The amount of the tax proposed is insignificant, and yet it will produce a yearly sum of about \$4,500, sufficient to stock our Library with valuable books and papers. If the tax were once voted, and the assurance thus given that the Library is placed beyond the sport of circumstances, there will be no difficulty in securing the means to put up a suitable building, for its accommodation.

The United States Senate seems to be as implacable and as unreasonable now as in the days of Andrew Johnson. When President Grant, under the pressure of sufficiently potent influence, appointed Geo. H. Williams, a man notoriously unfit for any place involving personal honor or official integrity, to the position of Chief Justice of the United States, the Senate, in a mere stubborn mood, without passing upon the qualifications, mental, moral, legal, or partisan, of Mr. Williams, forced the President to withdraw his name. Then the President, springing from one of the very worst to one of the very best—if not the very best—men in the nation for the position, named Caleb Cushing for Chief Justice of the United States. The same Senate—or rather a caucus of the dominant party in it—under the same stubborn or partisan, or worse impulse, refused to confirm the nomination of Mr. Cushing, and assigned no other reason for the refusal than the circumstance that, some years ago Mr. Cushing saw fit, in a note to Jefferson Davis to vouch for the personal honor and capacity of a young man who had been employed in an official capacity in Mr. Cushing's office. The Senate seems determined to make Grant recognize the supremacy of the Legislative over the Executive Department as emphatically as it did in the case of Mr. Johnson.

**Independence.**  
While respecting many of the members of the Directors of the Chamber of Commerce we can but regret their arrogant assumption of the right to dictate to the HERALD what it shall and what it shall not advocate in its columns. The HERALD was established in no man's interest, with no purpose in view other than to accomplish the most possible for the community in which it lives. It cares not whom it censures nor whom it praises. It held that it was the imperative duty of an honest paper to censure the wrong wherever it is to be found. This course, we regret to say, has not met with the approbation of that coterie of aristocrats who form the majority of the Directors of the Los Angeles Chamber of Commerce. They are unwilling to even license any paper that does not wear a collar, and written upon that collar some such phrase as this, "My dog, Dr. Griffin," or "My dog" with the name of some other prominent member of some other prominent ring. One member says, "Be independent, and honest, but let my little project alone;" another says, "Be public spirited, and honest; but advocate my cause and let the cause of the people take care of itself."

No! If the Chamber of Commerce or any of its members thought that by the subscription of 300 copies at \$75 per quarter the HERALD could be employed to do the dirty work of any and all its members, they were mistaken and have now found out their mistake. It would not advocate the interest of this swindle because one of its stockholders was a member of the Chamber of Commerce, nor that swindle lest otherwise the personal enmity of a member of the Chamber of Commerce should be stirred up.

Now, if any member of the Chamber think that it has accomplished a great deed by this little act of last night, the voice of the people, whom we represent and who are their basis, will speak in louder terms than can we. We ask no subsidy; we accept no subsidy. But the great body of intelligent people, those whom certain members of the Chamber, who have acquired their wealth by little less than legitimate robbery, have swindled, will see that we have our just rights.

**A Bad Movement.**

Senator Bush of Los Angeles yesterday presented a petition from that town and county, praying this Legislature to pass an act to authorize Los Angeles city to issue bonds for the purpose of building a depot and workshop for the Southern Pacific Railroad Company. This is simply the introduction of an old face under a new mask—a subsidy to a private railway corporation in a new form. The Legislature has just condemned the principle in both houses, in the repeal of the five per cent act, and they should not now go back on that vote by entertaining such a proposition as this. It is true they only ask for the small sum of \$13,000, but let that much be conceded against the anti-subsidy principle, and it will not be long till it shall see the evil revived in a worse form than ever.—[Sac. Union.]

An entirely erroneous impression is gathered from the above. The bill simply carries out a contract which has already been made, and takes a burden from a few citizens who in a public spirited way have assumed it. Opposed to subsidy on general principles, we can but deem it the duty of the Legislature to pass the bill mentioned.

Among the inducements offered to the Southern Pacific Railroad to do the work which has already been done in Los Angeles was that of depot and grounds. The city could not vote these without legislative permission, so a few citizens put themselves into the task; they assumed the responsibility, and made themselves personally trouble. The work has been done, and now it is but fitting that the city shall relieve its bondsmen of the burden which is above them. The bill does not ask to subsidize a railroad for work which is yet to be performed, but it asks that it be permitted to fill obligations already accrued.

The telegraphic dispatches make casual allusion to a legislative investigation, now progressing, of the financial affairs of the State University. But there seems to be a studied purpose to keep back the facts, or even an intelligible allusion to them. The truth is, that the magnificent endowment of the University made by the State, and the vast funds appropriated by law for the buildings, and placed in the hands of the Board of Regents, have been used in a flagrantly corrupt manner by the Building Committee of the Board of Regents. But, because the Board is composed of rich and powerful men, and controls a vast sum of public money, the Legislative Committee, and the press, and the telegraph, and all, appear determined to cover up rather than to expose a gross public wrong. We apprehend, however, that the present Legislature will ascertain the facts, if not by one committee, then by another, and deal with the delinquents so far as delinquents in high places can be dealt with.

LIEUTENANT-COLONEL FRED. D. GRANT, son of the President, who is now on General Sheridan's staff, and stationed at Chicago, has been ordered to duty on the mustering and disbursing branch of the service.—[Ex.]

THE late carpet-bag Governor of Texas, the name of him being Davis, concludes under the fatherly advice of the President, to allow the overwhelming voice of the people to stand as law, and to vacate the office of Governor.

**A Lady Clerk.**  
Secretary of State, Drury Melone, has appointed, says the *Record*, Mrs. Wm. Neely Johnson, wife of Wm. Neely Johnson of this city, as extra clerk in his office during the session of the Legislature. The lady is said to be fully qualified to discharge the duties required of a clerk, and Melone is the first constitutional officer in this State who has appointed a female to a position in a State office.

That is not the way Presidents have been made in the last twenty years."

**THE "LAST" LAY.**

Has then seen the rose at event?  
Hast thou heard him curse the dew?  
Hast thou seen the young men shout,  
Loaded down with Me's new shoes?

Has then seen them on their feet,  
How their beauties they display?  
Hast thou heard the young men shout,  
Show us some of Me's best lays.

Has then viewed each now perfection,  
Sought out each perfect plan?  
Hast thou seen Me's last invention,  
A perfect fitting boot on man.

Has then seen this man on foot,  
Stranger, passing rudely by?  
Hast thou heard him curse that boot?  
Well, I'm sure no more have I.

Now remember where the place is,  
Right before the Court House door;  
Don't forget to bring your purses,  
And your friends—I ask no more.

**Bunker Hill.**  
A little over a year more, and the 100th anniversary of the Battle of Bunker Hill will take place. A little band of heroes, then inaugurated a struggle, which brought untold results. It is very fitting that their deeds should be commemorated. The nation at large is very justly arranging for a celebration on an extensive scale, of the centennial anniversary of this event. This will instill patriotic impulse into the souls of those of the coming generations, and prepares them for the struggles, which they, in life, must undergo. Overhanging Los Angeles is a hill similar to Bunker Hill—nay, it is larger. From it all the city can be seen and the country for miles around. On this hill also, are military marks, the remnants of a fort, which was built for the protection of liberty in this State. This hill has an avenue running along its crest, and our friend Beaudry, through whose influence chiefly it has been opened, has very appropriately named it Bunker Hill avenue. The City Surveyor has been ordered to define the grades and lines of Olive, Charity, and Bunker Hill avenue, from Hill to Hope; Second street, and Temple street, from Hill to Hope. This will bring these lands within easy reach of the business part of the city. The distance to the Court House is less than it is from the Turners Hall.

Mr. Beaudry being the owner, by perfect and indisputable title, offers the following scheme, believing that it supplies a felt want.

His various tracts have been surveyed, and platted in lots of convenient size for residences, upwards of two hundred in number, and the maps, together with abstracts of title, are kept for public inspection at his office, opposite the Pico House.

Any person desiring to purchase can inspect the land, select his lot or lots, and acquire the same, if not previously taken up by another, upon the following terms: Purchasers not being restricted to a single lot.

The purchaser or his successor to pay the fixed price of the lands selected by him, in equal monthly installments, as follows: On lots valued at \$400 and upwards, but not exceeding \$500, \$15 per month; on lots valued at \$500 and upwards, and less than \$400, \$10 per month. Payments in gold or currency, and no interest demanded. For cash in hand a reduction of fifteen per cent. will be made.

The purchaser to have immediate possession upon payment of the first installment and on execution and delivery of contract.

The right of the purchasers may be assigned by him, and his assigns to succeed to all his privileges and liabilities, standing in all respects to the vendors as an original obligor.

Purchasers shall not be restricted to the payment of the installments as above shown, but may make payments in advance, and on such payments he will allow one per cent. per month, from the date of payment until said payment would become due.

Upon selection of a lot or lots by a purchaser, and payment of the first installment with five dollars, in U. S. gold coin, as expenses on the document, Mr. Beaudry with the purchaser, will execute and acknowledge a sealed agreement, embodying the above conditions; and, upon full payment, according thereto, the undersigned will execute and deliver to the purchaser, on demand, a good and sufficient and absolute deed of conveyance of the contracted lands, in form of warranty against grantor, the grantee paying the cost of such deed.

These proposals will be kept open until the 12th day of February, 1874. The location is very desirable. All that has heretofore been lacking is water, and that want is now fulfilled. Anywhere else, in as desirable location, lots readily command from \$500 to \$1,000 and even higher rates. This property is put at the astonishing low price of from \$300 to \$400. But this is not all. This may be paid in currency and a reduction of fifteen per cent will be made for cash in hand.

**THE SOUTHERN CALIFORNIAN,**  
RICHARD MELROSE, Proprietor.  
Anaheim, Los Angeles Co., California.

THE CALIFORNIAN is a Weekly Newspaper, just entering the fourth year of its existence, and has the largest circulation of any Weekly published in the country. Under the management of the present proprietor its columns have been devoted to the advancement of the agricultural interests of Southern California, and it is now recognized as the representative newspaper of the Farmer.

The CALIFORNIAN is independent in politics. Upon all subjects, however, in which the interests of its section are involved, its editorial columns will advocate the cause of the People against Monopolies, either Political or Commercial. Closely identified with the Grange movement in this State, it aspires to become an exponent of the principles upheld by the Patrons of Husbandry, and therefore asks of the Grangers of Southern California their assistance and support.

The aim of the CALIFORNIAN will also be to give to its readers an epitome of the latest news from the foreign and domestic. No trouble or expense will be spared to make it, in this respect, equal to any weekly newspaper in Southern California. It will also contain a full report of the local news of the day, and a careful and thorough review of the Local and Foreign Markets.

**AS THE CHARMING CHARAC-**  
ter of Southern California, and more  
especially that most favored section called  
Santa Barbara, becomes known to the world,  
it is not surprising that a widespread and  
growing interest in this region should be  
awakened. It is the constant aim of the Press  
to furnish perfectly reliable information at all  
points of interest to tourists, invalids and  
home-seekers, which we are prompt to do  
with greatly increased facilities.  
While the Press seeks to promote the  
prosperity of all Southern California by all  
legitimate and honorable methods, it is more  
directly interested in the growth and com-  
mercial greatness of Santa Barbara. The unequalled  
beauty of the climate, its almost incredible  
healthfulness, the beauty of the scenery, the  
wondrous variety and fertility of the soil, the  
almost unlimited range of products which  
flourish there without irrigation, which have  
been known from time to time by facts which can-  
not be controverted, in the columns of the  
PRESS. Any intelligent person can become

Prospectus for 1874. Seventh Year.  
**THE ALDINE,**  
An Illustrated Monthly Journal; uni-  
versally admitted to be handsomely  
Periodical in the World. A  
Representative and Champ-  
ion of American Taste.  
NOT FOR SALE IN NEWS OR BOOK STORES.

THE ALDINE, while issued with all the  
regularity, has none of the temporary or time-  
ly character of the ordinary period-  
icals. It is an elegant miscellany of pure, light  
and graceful literature; and a collection of  
pictures, the most exquisite of artistic skill  
in black and white. Although each succeeding  
number affords a fresh pleasure to its  
readers, the real value and beauty of The Al-  
dine will be most appreciated after it has been  
bound up at the end of the year. No other  
publications may claim superior cheapness,  
as compared with rivals of similar class. The  
Aldine is a unique and original compilation—  
unapproached—absolutely without  
competition in price or character. The posses-  
sor of a complete volume of ordinary period-  
icals, the quantity of fine paper and engravings in any  
other shape or number of times its cost; and there are chronic  
besides!
